This technical map illustrates the layout of the Bari-Modugno industrial agglomeration. It features a grid of roads and numerous building footprints represented by black polygons. The map is overlaid with a network of colored lines and dots, indicating the placement of traffic signs and safety equipment. A legend in the bottom-left corner defines the symbols used: blue triangles for vertical warning signs, purple triangles for vertical prescription signs, green circles for protection signs, and red circles for vertical indication signs. The map also shows various types of traffic signs, including warning of pedestrians, vehicles, and animals, as well as prescription signs for speed limits and traffic flow. The map is framed by a blue border, and the title block in the top-left corner provides project details, including the company name (ASI S.p.A.), the project name (AGGLOMERATO INDUSTRIALE DI BARI-MODUGNO), the area (Area: B - 1), the date (Marzo 2017), the scale (1:2.000), and the technical area (Ing. Pierluca Macchia).
